## COMMONWEALTH OF MASSACHUSETTS.

Norfolk, ss.

To Frederick D. Sutton, a Constable of the Town of Needham, in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Needham, qualified to vote in elections and in Town affairs, to meet at the Town Hall, in said Town, on Monday, the sixth day of March, next, at one o'clock in the afternoon, then and there to act upon the following articles, viz.:

Article 1. To choose a moderator to preside in said meeting.

Article 2. To hear the reports of town officers and committees and act thereon.

Article 3. To choose necessary town officers for their respective terms of office, and give in their votes "yes" or "no" in answer to the question:

"Shall licenses be granted for the sale of intoxicating liquors in this town?"

Article 4. To see what action the town will take in regard to unexpended balances and deficiencies.

Article 5. To see what sums of money the town will grant for the support of schools.

Article 6. To see what sums of money the town will grant for highways.

Article 7. To see what sums of money the town will grant for other necessary charges and expenses.

Article 8. To see what sums of money the town will grant for the public library.

Article 9. To see what disposition the town will make of the money received for dog licenses.

Article 10. To see in what manner the town will order the highway grant expended.

Article 11. To see how the town will have its taxes collected, and to choose a collector of taxes, and fix the compensation therefor for the current year.

Article 12. To see what action the town will take in regard to borrowing money in anticipation of taxes.

Article 13. To see if the town will accept the list of jurors as prepared and posted by the selectmen.

Article 14. To see if the town will vote to have the reports of its officers and the proceedings of this and other town meetings printed.

Article 15. To see if the town will appropriate money for the observance of Memorial day.

Article 16. To see in what manner the town will notify and warn the voters of its town meetings.

Article 17. To see what sums of money the town will grant for the care and improvement of its public grounds.

Article 18. On petition of Edgar H. Bowers and others, "to see if the town will take action in regard to the collection and publication of its history from its first settlement to the present time."

Article 19. On petition of James Mackintosh and others, "to see if the town will vote to elect selectmen and assessors for one year only at all town meetings when such officers may be elected."

Article 20. On petition of W. A. Gates and others, "to see if the town will instruct the selectmen to invest the school fund in bonds."

Article 21. On petition of E. G. Pond and others, "to see if the town will vote to instruct the water commissioners to extend the water main to South and Chestnut streets via Webster and South streets."

# RECORD OF TOWN MEETING

March 6, 1893.

---

The annual meeting of the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, was held pursuant to the foregoing warrant, in the Town Hall in said town, on Monday, the sixth day of March A. D. 1893.

Art. 1. Arthur Whitaker and Armand J. Mathey were appointed tellers by the town clerk to aid him in checking the names of voters and counting the votes for moderator, and they were sworn to the faithful discharge of their duties by the town clerk.

Emery Grover was chosen moderator by ballot, and the check list was used.

Art. 2. Voted that the reports of town officers and committees as printed, be accepted.

Art. 28. Voted that this article be dismissed.

Art. 3. The selectmen having appointed Charles H. Crowley and John H. Mayes as ballot clerks, they were sworn to the faithful discharge of their duties by the town clerk. The ballots prepared for use at this election by the town clerk were then delivered by him in sealed packages to the ballot clerks and their receipt taken therefor. Cards

of instructions were then posted in each of the voting compartments, and cards of instructions and the specimen ballots were posted in the hall outside of the guard rail as required by law.

The moderator appointed George L. Kingsbury, George W. Tisdale, Clarence L. Judkins, Thomas J. Crossman, Charles W. Richards, Charles E. Stanwood, A. J. Mathey, Anson W. Morgan, Aaron Twigg, Edgar H. Bowers and George W. Southworth as tellers to assist him in receiving, assorting and counting the ballots under this article, and said tellers were sworn to the faithful discharge of their duties by the moderator.

Voted that we proceed to ballot for one selectman for three years ; one overseer of the poor for three years ; a town clerk for one year ; a town treasurer for one year ; one assessor for three years ; one school committee for three years ; one water commissioner for three years ; one water commissioner for two years to fill vacancy ; two trustees of the public library for three years ; a collector of taxes for one year ; two auditors for one year and two constables for one year ; also to vote " yes " or " no " upon the following question : " Shall licenses be granted for the sale of intoxicating liquors in this town? " all on one ballot.

The ballot box furnished by the commonwealth for use at elections was publicly opened by the moderator and shown to be empty, and then locked. At two o'clock p. m. the polls were opened for the reception of ballots, and were kept open until eighteen minutes past six o'clock p. m., when they were declared closed.

At the opening of the polls the ballot box register indicated 0–0–0. During the voting the ballot box was opened

for the removal of ballots five times and again at the close of the polls, when the register stood at 451. The ballots were audibly counted one by one by the moderator as they were taken from the box, and the whole number was 444. The whole number of votes cast by men voters was 410. Whole number cast by women voters for school committee was 34. The names on the list of men voters which had been checked by the tellers were counted and the number was 410. The number of names checked on the list of women voters was 34, which agreed with the number of names checked on the list kept by the ballot clerks at the entrance to the voting place.

A canvass of all the votes given in was made by the moderator and tellers, the blank forms furnished by the secretary of the commonwealth being used. Upon the completion of the canvass of all the votes cast, the moderator declared the result of the voting to be as follows, viz. :

Art. 2. The finance committee appointed March 6, 1893, presented a report.

Voted not to accept the report.

Voted that the committee be discharged.

Voted to rescind the vote whereby the committee was appointed.

Voted that the boards of selectmen, school committee, assessors and water commissioners, together with thirteen citizens to be chosen at this meeting, shall constitute a committee on appropriations. Said committee shall be called

together as soon after the first day of January next as may be found convenient, by the chairman of the selectmen, for organization. They shall give one or more public hearings, and make a report to be printed and distributed with the town reports, recommending the appropriations necessary to be made at the next annual meeting.

Voted that a committee of five be appointed by nomination from the floor, who shall retire and bring in a list of thirteen names selected from citizens resident in different sections of the town, for members of the appropriation committee.

George W. Tisdale, Wm. Carter, Thomas Sutton, Chas. Low and Henry Blackman were chosen a committee to bring in a list of names under the foregoing vote.

The committee reported the following, viz: J. Wentworth Brown, Solomon W. Hutchinson, Edmund G. Pond, Charles H. Sutton, Henry Blackman, Thomas Abraham, Charles A. Low, William H. Carter, Alfred W. F. Blanchard, Geo. Lyman Kingsbury, William G. Moseley, Curtis McIntosh and Thomas J. Crossman.

Voted to accept the committee as presented.

Voted that the appropriation committee be authorized to fill any vacancy in their membership.

Voted that the town authorize its board of water commissioners to make such extension of its water mains as in their judgment will be for the interest of the town.

Art. 4. Voted that all unexpended balances be turned into the treasury, and all deficiencies paid from the treasury, provided that the balance on Avery street be continued.

Voted that the unexpended balance of the water department be continued for the same.

Art. 5. Voted that eleven thousand (11,000) dollars be appropriated for the support of schools for the current year.

Voted that the income from the school fund be appropriated for books and supplies.

Voted that the sum of six hundred (600) dollars be appropriated for school incidentals.

Voted that the sum of three hundred (300) dollars be appropriated for the painting and repairing of the Harris school-house.

Art. 6. Voted that the sum of six thousand (6,000) dollars be appropriated for laying out, making, altering and repairing highways, townways and bridges, and for labor and materials to be used thereon.

Voted that the sum of thirteen hundred (1,300) dollars be appropriated for sidewalks, concrete or gravel where the abutters will pay one-half the expense, the money to be expended under the direction of the selectmen, provided that the selectmen have power to spend any part thereof in the repair of sidewalks already constructed.

Voted that the ridges in our streets caused by the laying of water mains be removed by the superintendent of streets under the direction of the selectmen, and the expense be charged to the construction account of the water department.

Art. 7. The following appropriations were made under this article, each item being voted upon separately, viz.:

| | |
|---|---|
| For the relief and support of the poor, | $2,800 00 |
| Removal of snow, | 550 00 |

# RECORD OF ADJOURNED MEETING

March 20, 1893.

---

Pursuant to adjournment, the inhabitants of the town of Needham, qualified to vote in elections and in town affairs, met in the Town Hall in said town, on Monday evening, March 20, 1893. Emery Grover, moderator.

Art. 10. Voted to amend the vote passed under this article at the last meeting, by adding at the end thereof the words : Provided that the highway surveyors shall have the right to reject any and all bids.

Voted that all men employed on the highways shall be residents of the town in preference to all outside parties.

Voted that there be a committee of five appointed to look into the expediency of purchasing teams for the purpose of doing the town work, and of providing a place to keep the said teams, and to report at the public hearing of town officers and the committee of thirteen that is to be held soon after the first of January, 1894. E. J. Eaton, Nathaniel Wales, George T. Barnes, Walter H. Watson and James Mackintosh were chosen the committee.

Art. 11. Voted that all poll taxes shall be payable on demand, and all other taxes on or before the first day of October. Interest at the rate of one-half of one per cent. a month shall be charged no all taxes not paid on or before the first day of November. The collector shall use the

means provided by law for the collection of all taxes remaining unpaid after the first day of December.

[The above paragraph shall be printed on the tax bills.]

Voted that the collector of taxes shall have the same power which the treasurer would have when acting as collector.

If in the judgment of the collector, that in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors); he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April, 1894. The compensation of the collector shall be one per cent. on all taxes and interest collected by him and paid to the treasurer.

Voted that the collector receive his pay when one-fourth amount of warrant is received, and when one-half the amount received, and when three-fourths of amount received, and the balance of pay when the full amount has been collected.

Art. 12. Voted unanimously that the treasurer be authorized with the approval of the selectmen, to borrow on temporary loan such sums of money as may be necessary, in anticipation of the collection of taxes, — the same to be paid therefrom.

Art. 14. Voted that the selectmen cause the valuation list and the other reports and accounts of town officers to be made up to December 31st, inclusive, and placed in the hands of the auditors, who shall examine and make report on the same; that the selectmen shall cause the same to be printed and distribute them among the tax payers of the town at least twenty days before the annual meeting.

Voted that the town clerk cause to be printed official copies of the proceedings of this meeting, one of which he shall send to each officer of the town within two weeks after the final adjournment of this meeting, and shall deliver one copy to any voter or tax payer in the town who may apply for it, and that the town clerk furnish a copy of the record of each and every town meeting held during the year for printing, so that it may be bound with the annual report of town officers.

Art. 15. Voted that the sum of one hundred and fifty (150) dollars be appropriated for the observance of Memorial Day.

Art. 16. Voted that all town meetings be notified and warned by posting a copy of the warrant for the same, properly attested, in not less than twenty public places in the town, at least seven days before the time of said meeting, and that a copy of the town warrant be left at each dwelling house in town, at least seven days before said meeting, but the leaving of a copy as aforesaid shall constitute no part of the service of said warrant.

Art. 17. Voted that the sum of two hundred (200) dollars be appropriated for the care and improvement of public grounds of the town, and that the sum be expended under the direction of the selectmen.

Art. 18. Voted that a committee of five be appointed by the moderator to inquire into the matter of preparing and publishing the history of the town, and report upon the expense and expediency of such publication, and any facts in connection with the same.

The moderator appointed Edgar H. Bowers, Charles C. Greenwood, James Mackintosh, George K. Clarke and Aaron Twigg as said committee. Mr. Twigg declining to serve, Emery Grover was chosen in his place.

Art. 19. Voted that the town rescind its action whereby it voted to elect its selectmen and assessors for more than one year and elect such officers annually.

Art. 20. Voted that this article be dismissed.

Art. 21. Voted to refer the subject matter of this article to the water commissioners.

Art. 22. Laid upon the table until Article 25 is taken up.

Art. 25. Voted that the sum of nine hundred (900) dollars be appropriated for the extension of the fire alarm system.

Art. 26. A motion under this article was voted down, and no further action taken.

Art. 27. Voted that the selectmen be instructed to contract with some company to light the streets with electricity — town to own poles and wires — expense not to exceed $3,000 per year.

Voted that the thanks of the town be presented to the committee on electric lighting for their report.

Art. 7. Voted that the sum of six hundred (600) dollars be appropriated for street lights.

Voted that the sum of fifteen (15) dollars be appropriated for payment of the moderator for services at annual town meeting.

Voted that this meeting be dissolved.

# RECORD OF STATE ELECTION.

November 7, 1893.

---

In pursuance of the foregoing warrant, the inhabitants of the town of Needham, qualified to vote in elections, met in the town hall in said town, on Tuesday the seventh day of November, in the year one thousand eight hundred and ninety-three, and were called to order at seven o'clock a. m. by Aaron Twigg, chairman of the board of selectmen, who read the warrant calling said meeting and the return thereon of the officer who warned and notified the inhabitants.

The selectmen appointed Walter Hewett and Howard A. Crossman as ballot clerks and they were sworn to the faithful discharge of their duties by the town clerk.

The package containing the "first set" of ballots received from the secretary of the Commonwealth was then delivered by the town clerk to the chairman of the selectmen, and the package was publicly opened and the ballots delivered to the ballot clerks. Cards of instructions together with a copy of the proposed amendment to the constitution, were then posted in each of the voting compartments as required by Section 149 of Chap. 417 of the Acts of 1893.

Cards of instructions, specimen ballots and copies of the proposed amendment to the constitution were posted in the

hall outside of the guard rail, in accordance with the provisions of said act.

The ballot box furnished by the commonwealth for use at elections was then publicly opened and shown to be empty, and was examined by the selectmen and town clerk and found to be empty. The box was then locked and the key to the lower part delivered to George E. Wragg the officer in attendance at the polling place.

The polls were then opened for the reception of ballots, and were kept open until thirty minutes past four o'clock in the afternoon, when (as had been voted by the meeting) they were closed. At the opening of the polls the ballot box register indicated 0-0-0.

The following additional ballot clerks were appointed by the selectmen, viz:

Albert M. Miller and Arthur F. Woodward, and they were sworn to the faithful discharge of their duties by the town clerk.

David H. Livingston was appointed a teller by the selectmen and sworn by the town clerk.

The selectmen appointed the following as tellers, viz:

Charles W. Richards, Armand J. Mathey, Joseph A. Poggi, Emery Grover, Albert M. Miller, Arthur F. Woodward, Howard A. Crossman and Alger E. Eaton, and they were duly sworn by Aaron Twigg the presiding election officer. During the voting the ballot box was opened with the unanimous consent of the selectmen and town clerk, twice for the removal of ballots and again at the close of the polls when the register stood at 524.

The ballots were audibly counted one by one as they were taken from the box, and the whole number was five hundred and twenty-four (524).

The names on the list of voters which had been checked were audibly counted and the number found to be five hundred and twenty-four (524), which agreed with the number of names checked on the list kept by the ballot clerks at the entrance to the voting place.

A canvass of all the votes given in was made by the election officers as required by the provisions of Chap. 417 of the Acts of 1893, the blank forms furnished by the secretary of the commonwealth being used. Upon the completion of the canvass of all the votes cast and the whole number duly sorted, counted and recorded, public announcement thereof was made by the town clerk in open meeting as required by law, and were for the following state and county officers, viz:

*For Governor.*

Whole number of ballots, five hundred twenty-four.

*Amendment to the Constitution.*

Shall the proposed amendment to the constitution relative to the payment of mileage to members of the General Court be approved and ratified?

Whole number of ballots five hundred twenty-four.

Yes, one hundred forty-nine.
No, one hundred thirty-two.
Blanks two hundred forty-three.

In voting no person was given a ballot by the ballot clerks until his name had been found upon the list of voters and checked, and no person was allowed to vote until his name had been checked upon the voting list used by the election officers at the ballot box.

The business of the meeting being completed, the returns of votes were signed by the selectmen, attested by the town clerk and sealed up in open town meeting as required by law, and delivered to the town clerk.

The ballots cast, the undistributed and cancelled ballots

and also the voting lists used were then sealed up and endorsed by the election officers and placed in the custody of the town clerk in accordance with the law in that case made and provided.

The meeting was then declared dissolved by Aaron Twigg, chairman of the board of selectmen.

Dissolved.

# ANNUAL REPORT

—OF THE—

# Selectmen and Overseers of the Poor

FOR THE YEAR 1893.

---

The responsibility of the board has been increased this year by the action of the town in intrusting to it the supervision of the introduction of the electric street lighting system.

The following report of their doings in that matter is respectfully submitted:

## ELECTRIC LIGHT.

At the adjourned town meeting held March 20, 1893, the town voted "That the selectmen be instructed to contract with some company to light the streets with electricity—town to own poles and wires—expense not to exceed $3,000 per year." By a subsequent vote the selectmen were instructed to use the incandescent system of lighting. The Westinghouse series incandescent system

was adopted, has been constructed, and is now in successful operation in accordance with the above instructions.

The board entered upon its duties with the determination that in the construction of the distributing plant none but the best of material should be used and the work should be done thoroughly at the lowest possible cost to the town. The contract was awarded to the Hawks Electric Co. of Boston, and has been carried out in a satisfactory manner. The specifications called for the employment of chestnut poles of a minimum diameter at the small end of six inches, of different lengths according to the work required of them and also that they must be subject to the approval of the selectmen. A number of poles were rejected. As a result those erected are straight and well selected, as can be readily seen. Hard pine cross arms, wrought iron brake arms and lamp fixtures of the best quality were called for. The best insulated copper wire on the market was used; notwithstanding the extra cost it was considered a more economical and safer wire on account of the durability of the insulation.

In the location of the lamps much care was taken to light the territory covered well, and not to be lavish with the light. It was not found expedient to always place lamps an exact distance apart. It seemed more essential to locate lamps at street corners and at intersections of streets where they would light in three or four directions. In some instances the distance between two cross streets would necessitate the stretching or shortening slightly of the intervals between the lights in order to bring one at each intersection.

The poles were placed as near 135 feet apart as the surroundings would permit. In the business centers lights were placed on every pole, in the villages generally, on

every other pole, and on streets of less use on every third pole; three hundred twenty-five candle-power lamps lighting nineteen miles of streets in a thorough manner. Four hundred and ninety new poles were set. Tree arms were placed on twenty-seven trees. This was not done as a matter of economy, but rather to save the mutilation of the trees and to avoid the location of poles, which at best are unsightly objects on any landscape. A saving, however, was made by the use of sixty-eight fire alarm poles and ninety-seven telephone poles. Twenty-four and one-half miles of No. 8 and twelve and one-half miles of No. 2 wire were used.

The original plan was for a one-thousand volt current, but owing to the distant point from which the current was to come it was changed to two thousand, thereby saving nearly one-half of the cost of the wire which it would have required for a thousand-volt current.

The contract for supplying the power was awarded to the Eliot Falls Electric Light Co., whose power station is located at So. Natick upon a valuable water privilege. The manager of the company has promised to establish a supplementary steam plant for use in case of the failure of the water supply. To connect this station with the lighting system feed wires were strung from the town line at the So. Natick bridge on Charles River street, through Charles River street and South street to Chestnut street. This was not the nearest point to the lighted district, but it was the most populous route and a section which will doubtless soon receive the lights. Another reason for selecting this route was that the expense was lessened by the use of one hundred and ninety-four telegraph poles already erected on these streets.

| | | |
|---|---|---|
| The total cost of the system has been | | $13,757 56 |
| The cost of the feed wire from town line on Charles River street to lighting district, | 2,560 56 | |
| Cost of two arc lamps with transformers and fixtures complete, | 176 00 | |
| | | 2,736 56 |
| Cost of construction of nineteen miles (distributing plant), | | $11,021 00 |

This includes the heavy feed wire running through Chestnut street, Great Plain avenue and Highland avenue, and would make the expense per mile for construction $580. Exclusive of this feed wire the cost would be about $500 per mile, which could be taken as a basis upon which to make estimates for further extension of the system.

The plan proposed by the committee on electric lighting, which provided for the lighting of but fourteen miles of street, was estimated to cost $10,000. Nineteen miles have been constructed at a cost of $11,021.

The first-named system was for a direct current. The former is an alternating current, which is a much more expensive system to build.

In the estimate of $10,000 no provision was made for bringing the electric current to the distributing system, as it was not known at that time from what source it was coming. The company receiving the contract was willing to build the connecting line, but it was considered advisable that the town should own all parts of the system within its territorial limits.

## Arc Lights.

Upon the adoption of an incandescent system some dissatisfaction was expressed that we were to have no arc lights. The manager of the Eliot Falls Co. kindly offered these disappointed citizens to furnish the current for two arc lamps, one in the square of each village gratis, provided some persons could be found to care for them. Volunteers for the service presented themselves, and the selectmen, contrary to their best judgment (electric experts claiming that there were no arc lamps perfected that would work successfully on an alternating current) caused two Hileos arc lamps to be put in place, this company claiming that they had 5,000 of these lamps working satisfactorily on an alternating current. They have not up to the present time proved a very brilliant success. Experiments are being made with them, and if they do not finally work they will be substituted by a cluster of incandescents.

While we do not consider them in any way a part of the system, they costing the town nothing for care, the effect when they were in operation was such that we hope they will shortly be restored to us.

The contract with the Eliot Falls Electric Co. calls for "sufficient alternating electric current to maintain lighted to full candle-power 260 25-candle-power incandescent lamps every dark hour daily from sunset until 12.30 a. m., except such nights as there shall be sufficient moonlight unobscured by clouds." The company further agrees "To furnish a competent person to look after the system during such periods of lighting, who shall make all wire repairs and properly conduct the system, replacing new lamps when necessary," the town to furnish all material for such repairs and to furnish the lamps for renewal.

For the above service the town is to pay $1,870 per

year. "It is agreed that said town may at any time or times add to the number of its lamps, and that upon thirty days' written notice of any such addition, said company shall proportionally increase the electric current furnished, and shall receive additional pay at the rate, namely: six dollars per year per 25-candle-power lamp."

During the construction of the distributing plant the town voted to make an extension calling for forty additional lamps, so that the annual expense at present would be

| | |
|---|---|
| Original 260 lamps, current and care for entire system, | $1,870 00 |
| Additional 40 lamps at $6 per year, | 240 00 |
| Estimate for renewals and material for repairs, | 390 00 |
| | 2,500 00 |
| To this should be added interest at 4% on $13,757.56, | 550 30 |
| Total annual expense of maintaining system, or $10.17 per light per year. | $3,050 30 |

The construction was in progress during the financial depression of last summer. It was impossible at that time to place the bonds on the market, so the amount authorized by vote of the town was borrowed in anticipation of the issuance of the bonds, and a note given which will fall due about April 1, 1894. From present indications there will be no trouble in floating 4% bonds at that time.

The system has worked in a very satisfactory manner from the time of starting. With one exception, there has been a laxity on the part of Eliot Falls Co. in renewing the lamps as they have burned out. It was thought advisable by this board to place the care of the system with that

company, so that they should be held entirely responsible for its perfect operation.

They have been furnished with a plan of the system with every light numbered, and stencil plates, with the understanding that they should number the lamps and distribute postal cards in public places in different parts of the town, on which citizens could notify them by simply writing the number of the lamp burned out and dropping it in the postoffice. If a different disposition is not shown by said company at once heroic measures will be adopted by the board to obviate this trouble.

We would take this opportnnity to congratulate the inhabitants of the town of Needham upon the successful inauguration of a system of electric lighting, upon the acquisition of that luxury of modern invention, to the blessings which we already enjoy, good schools, excellent roads, a water supply unexcelled in purity, and a town of rare beauty and healthfulness.

## Commercial Lighting.

The selectmen have granted the Eliot Falls Electric Light Co. a permit to do commercial lighting as authorized by the town. The interests of the citizens have been carefully guarded in the matter. The maximum charge for light is restricted to three-fourths of one cent per light per hour for a 16-candle-power lamp. The company agrees to furnish renewals for all lamps that burn out by action of the electric current and to furnish the necessary transformers and meters, the inside wiring alone to be done by the individual receiving the light.

The company is to pay the town six per cent on the cost of the poles used in the system for the privilege of using them. Their right to do business is to cease with

their contract for street lighting (five years). If said contract is not renewed the property of the company within the town is to revert to the town at its cash value.

## Highways.

At the last annual town meeting it was voted that the selectmen be instructed to receive proposals for furnishing teams for the highway department. Immediately after said meeting a list of specifications was drawn up specifying the capacity of carts, weight of horses, etc., and bids were called for. DeLacy Atkinson being the lowest bidder received the contract for supplying all the teams for the highway department with the exception of snow work. The teams supplied by him have been of excellent character and the service rendered by him under his contract has been satisfactory. The prices paid him were as follows: for one horse cart and driver, $3.24; for two horse team and driver, $4.73; for four horse team and driver, $7.73 per day.

This change, as was explained at the town meeting in which it was made, necessitated the making of a different arrangement with the superintendent of streets. The selectmen appointed Mr. C. H. Dewing superintendent at an annual salary of $900, he to furnish a team for his own use for that amount. We consider the town fortunate in being able to obtain his valuable services upon those terms. Aside from the ordinary repairs of the streets in all parts of the town substantial improvements have been made in rebuilding Hillside avenue from Union street to Hunnewell street, and Great Plain avenue from the ledge in front of the residence of Mr. Geo. C. McIntosh to Marked Tree road. That portion of the ledge which projected into the street has been removed and most of the material used to

repair the street. Last year this street from the ledge to Noyes street was rebuilt, and a year or two previous to that from Noyes street nearly to the Wellesley line was reconstructed by special vote of the town. We now have a continuous section of street fully a mile long, macadamized throughout most of its length, largely owing to the policy adopted by the board of reconstructing in a thorough manner some streets or parts of streets each year.

The building for the storage and protection of the tools and implements of the department has been built on land of the town known as the "Ireland pit," as recommended in our last report and provided for at the last annual meeting.

The report of the superintendent of streets appears elsewhere, in which will be found a detailed statement of matters pertaining to the department.

## Sidewalks.

As will be seen by the financial report a greater part of the appropriation for this department has been expended in constructing new concrete walks. Edgestone was used in the building of the sidewalk on Chapel street abutting the Ingols' property, and at Highlandville abutting the building owned by Wm. Carter and known as the Highland house. A considerable amount of concrete without edgestone was laid upon Dedham avenue, the expense of which was increased by the extra amount of grading required, it being built on a line of a true grade from Great Plain avenue to Webster street.

It is hoped that the town will soon feel in the financial condition, and will see the importance of building a continuous concrete sidewalk upon the east side of Highland

avenue, from Great Plain avenue in Needham to West street in Highlandville. This would facilitate the intercourse between the two villages and would be a mutual benefit to the residents of each.

The condition of existing gravel sidewalks in the town could be greatly improved at a slight expense by giving them quite generally a light coat of screened gravel. We trust the coming year to be able to do a large amount of this class of work.

## Poor.

In the management of the affairs of this department nothing unusual has occurred during the year, the overseers of the poor endeavoring to relieve all worthy poor from suffering for the necessities of life and at the same time to prevent imposition by the idle and unworthy.

Bridget Mitchell, an inmate of the Wellesley Almshouse, and Sarah Gillow, who was being boarded by the town at Mrs. T. N. Smith's in Wellesley, have passed away, and this list, those receiving total support, has been increased by the addition of Mary Staples.

The return of John Poyner from his pilgrimage has lessened slightly the expense which his family has been to the town.

The business depression throughout the country has made but a slight increase in the expense of this department, which has been largely due to the increase in the number of tramps, as high as eighty in one month having partaken of the hospitalities of the town. The keeper of the lockup has for years been paid fifty cents per head for their entertainment, but owing to the large increase in their number with no prospect of it being less, the board, if the town vote to continue the permanent police officer, propose

to make him keeper of the lockup and include the care of tramps in his duties without additional pay. In such case the only expense they will be to the town will be a slight one for a ration of crackers and cheese.

## Police.

Owing to a number of fires in the town, of a doubtless incendiary origin, the selectmen appointed Frederick D. Sutton and Geo. Adams night watchmen, who continued to watch in the village of Needham on alternate nights, until the resolution was passed in a special town meeting, that the selectmen should appoint a night policeman. A largely signed petition being presented to the board for the appointment of Mr. Geo. E. Wragg, that gentleman was appointed until the town should take further action in the matter at its annual meeting. It is the opinion of the board that the time has come when a permanent night watchman should be provided for.

## Litigation.

After a number of years of litigation, and a most stubborn legal fight between the N. Y. & N. E. Railroad Company and the town of Needham, the Oak street case has been finally settled, for all time, in favor of the town.

The suits brought against the town by the city of Newton to recover taxes paid on land taken for water purposes, was withdrawn from the courts, a settlement being effected by the selectmen, which was a victory for the town.

In the case of Doyle vs. town of Needham, the courts decided in favor of the town.

The only remaining unsettled law cases are the High Rock street case, and the case of Watson vs. the town,

we trust they will soon be settled, and hope to have less to do with the courts in the future than we have had during the past few years.

NOTE. In the report of cost of labor on gravel sidewalks, page 86, there is an error in amounts charged respectively to Great Plain avenue and Hillside avenue, which correctly stated is as follows:

| | |
|---|---|
| Labor as per pay roll on Hillside avenue, | $64 75 |
| Labor as per pay roll on Great Plain avenue, | 81 26 |

# REPORT

—OF—

# SUPERINTENDENT OF STREETS.

---

To the Board of Selectmen:

According to your contract with Mr. De Lacy Atkinson, as authorized by vote of the town, he has furnished teams and done the work in a satisfactory manner. Most of the men employed are owners of real estate in the town, all of them residents here, and they have been diligent, faithful and efficient. As usual in the spring our gravel pits were badly blocked with stones, but they were all utilized, the coarsest being hauled to the crusher or used for widening, according to the length of haul, and the smaller ones used in road beds. A quite heavy fill and widening was made near the bridge leading by the Newton Pumping Station, and also near the Hewitt gravel pit. There has been a large amount of gutter scrapings and waste material handled, which has been utilized in fills and widenings for sidewalks, thereby avoiding the necessity of railings in many cases.

The ledge on Great Plain avenue near Geo. C. McIntosh's has been blasted, and the street rebuilt with a stone

foundation most of the distance between the ledge and Marked Tree road, using the fine stone from the ledge, the coarser ones being hauled to the crusher.

A much needed improvement has been made on a portion of Hillside avenue between West and Hunnewell streets, rebuilding with a stone foundation, and providing drainage by dry wells and piping.

Among other streets which have been much improved are Highland avenue, Central avenue, Dedham avenue, South street, Reservoir street, West street, Chestnut street, Union street, Cedar street, Rosemary street and Webster street, with needed repairs on several others. Our village streets have been much improved by the trimming of shade trees, and the bushes and shrubs have been removed from the sides of the roads in outlying districts.

Unavoidably the water works ridges and service pipe ridges are a great damage to our streets, and it seems as if the service pipes especially, crossing the gutters so frequently at right angles, should be thoroughly tamped.

Our sidewalks have been repaired and extended where it was deemed most necessary. Quite an amount of concrete walk has been put in the past season, and I hope we may have a larger addition to it the coming season, as it seems to give good satisfaction.

The drainage at Needham is not sufficient. I would recommend extending the Chestnut street discharge pipe to some point below Oak street, thereby getting more fall and quicker drainage from Railroad square and adjacent streets, and at the same time avoiding the only other way of drainage, that is, regrading Chestnut street, which would be a serious damage to quite a number of estates on the street, and nearly or quite as expensive.

Another important matter which should be considered is

the drainage of Dedham avenue at or near the junction of Grant street.

There is a large amount of stones at the crusher, which should be run through the machine as soon as the weather will permit so as to be ready for use on the roads in the early spring.

There have been moved during the season: 2,225 loads of gravel, 1,287 loads of stone and 2,620 loads of waste, averaging 1½ cubic yards per load.

# FOURTH ANNUAL REPORT

—OF THE—

# WATER COMMISSIONERS

---

*To the Inhabitants of the Town of Needham:*

The water commissioners would respectfully present their report for the year ending Dec. 31, 1893:

We regret the resignation of Mr. John Moseley from the water board. We appreciate very highly the important services which were rendered by him while he was a member of the same. We congratulate the town that it could have his services for three years, a part of which services being rendered at the important time of putting in the works. At the March meeting Mr. George A. Adams was elected for two years to fill the unexpired term of Mr. Moseley. The board organized, choosing James Mackintosh as chairman and George A. Adams as secretary. Joseph W. Leonard, the superintendent of the works, sent in his resignation, to take effect June 1, 1893, after doing considerable of the engineering work necessary for the pipe extensions. Previous to this time we had

made a contract with Mr. Louis E. Hawes to take charge of the pipe extensions, and to have the contracts faithfully executed. Since Mr. Leonard's resignation Mr. George A. Adams, a member of our board, has performed the duties of superintendent.

## Extensions.

The town voted to authorize the water commissioners to make such extensions of the water mains as, in their judgment, would be for the interest of the town. Under the said vote we have made the following extensions, which we think were wisely and safely made under the guarantees required by us: Webster street from Dedham avenue to South street 6-in. pipe; South street to Chestnut street 8-in. pipe, Highland avenue to Newton line 8 and 6-in. pipe, May street and Oakland avenue 8- and 6-in., Mellen street 6-in., Gage street 6-in., Oak street 4-in., Great Plain avenue west of Central avenue 8- and 6-in. pipe, making a total for the year of 5,760.3 feet of 8-in., 10,411.3 feet of 6-in., 466.4 4-in. pipe, and 16,638 feet this year. This added to the 93,481.1 previously put in it would make 110,110.1 feet, or 20.85 miles. For distances in said streets, see list of pipe laid in streets in this report. We have caused to be set 30 hydrants. These added to the 139 previously set would make 169 hydrants, all of the Ludlow pattern. We have also caused to be set 18 gates and boxes. These added to the 142 previously would make 160 in all.

## Pipe.

The lowest proposal for furnishing the first lot of pipe was from R. D. Wood & Co., Philadelphia, Pa. The contract was dated June 3, 1893, at the following prices:

8- and 6-in. pipe, $27.40 per long ton; 4-in. pipe, $27.90 per long ton.

The lowest proposal for the second lot of pipe was from Jackson Woodin Co., Berwick, Pa., Aug. 1, 1893, 8- and 6-in. pipe, $25 per ton of 2,000 lbs. F. O. B. at Needham.

## Pipe Laying.

The commissioners advertised for proposals for pipe laying and the setting of hydrants and gates June 13, 1893, and received three proposals. The contract was awarded to Joseph Bruno of Boston, he being the lowest bidder, at the following prices: 8-in. pipe, 24c.; 6-in. pipe, 22c.; 4-in., 20c. per running foot; hydrants, $1.50; 8-in. gates, $1 each; 6-in., 90c., and 4-in., 80c. each. Mr. Bruno proved to be a reliable contractor, pushing his work with energy and ability, and receiving the hearty co-operation of his workmen.

## Service Pipes.

The contract for putting in the service pipes was continued for one year with J. F. Buckley & Co. of this town, at the prices as heretofore given. The contract for hydrants and valves was awarded to the Ludlow Valve Mfg. Co.

## Bonds.

The $10,000 water bonds were sold to Messrs. Brewster, Cobb & Estabrook, numbered as follows: 145, 147 to 158, inclusive, at a premium which with accrued interest amounted to $96.11.

We have paid since 1890 $3,000 of our water bonds. The bonded debt as now adjusted matures as follows:

| | |
|---|---|
| $2,000 each year, 1894 to 1900 inclusive, | $14,000 |
| For the year 1901, | 5,000 |
| For 1902 to 1917 inclusive, $5,500 each year, | 88,000 |
| For 1918 to 1920 inclusive, $6,000 each year, | 18,000 |
| For 1921, | 5,500 |
| For 1922, | 1,500 |
| The amount of outstanding bonds at this time is, | $132,000 |

## Improvements.

We have improved the conditions between the supply well and the pumping station lot by leveling off the material thrown out of the two ditches on either side of the road running from the above-mentioned lot to the supply well, and seeded it down to grass, much improving the appearance. We congratulate the people of Needham on the continued good quality of our water.

## Estimates for 1894.

The board have estimated what in their judgment will be needed to meet the expenses in 1894.

| | | |
|---|---|---|
| Interest, | $5,280 00 | |
| Salaries, | 1,500 00 | |
| Coal and wood, | 700 00 | |
| Miscellaneous, | 400 00 | |
| Deficiency in 1893, amount, borrowed from construction account, | 626 14 | |
| | | $8,506 14 |
| Estimated income for 1894, | $4,200 00 | |
| Amount due for water tax, | 1,314 19 | |
| | | $5,514 19 |
| | | $2,991 95 |
| Maturing bonds, | | 2,000 00 |
| | | $4,991 95 |
| Appropriation required, | $5,000 00 | |

As the interest on the bonds for the first six months in each year must be paid on the 15th of February, and being before our annual town meeting, the town must make some provisions to meet it and we would recommend that the town authorize its treasurer, with the approval of the water commissioners, to borrow such sums of money as may be necessary in anticipation of the collection of taxes.

JAMES MACKINTOSH,
GEORGE A. ADAMS,
JOHN M. HODGE,

Water Commissioners.

# SUPERINTENDENT'S REPORT.

*To the Board of Water Commissioners:*

GENTLEMEN: — I have the honor to present herewith the annual report of the superintendent's department for the year ending Dec. 31, 1893:

The pipe line is in good condition, the gates have been inspected, and where it was necessary the gate boxes raised to the surface of the ground so they can be easily found.

The hydrants have been painted, the domes receiving two coats white paint, the remainder one coat black (asphaltum), and are in good working order.

The pumping station is in good condition. A drain has been laid from the cellar to the brook, making a much needed improvement. The boilers and pumps are in good repair.

| Average amount from each meter (40 been in use less than 6 months), | $9.55 |
| Total receipts for metered water, | $1,776.85 |

## Unmetered Water.

| | |
|---|---|
| Total number of gallons unmetered water, | 33,010,579 |
| Estimated number of gallons used for town purposes, | 8,000,000 |
| Number of gallons used for domestic purposes, | 25,010,579 |
| Number of gallons to each tap for domestic purposes, | 102,502 |
| Number of gallons per day to each tap for domestic purposes, | 280 |
| Receipts per million gallons for domestic | |

| | |
|---|---|
| purposes, | $78.55 |
| Average amount from each tap, | $8.07 |
| Total receipt for unmetered water, | $1,971.09 |
| Cost for coal per million gallons water pumped, | $14.82 |
| Total cost to furnish water per million gallons, including interest on plant and cost for maintenance, | $197.65 |
| Receipts per million gallons, | $96.73 |

It will be seen by the above figures that less than one-sixth of the water consumed passed through meters, although nearly one-half of the income was derived from the same.

Estimating the number of gallons used for fountains, flushing hydrants, puddling trenches and fire department, at eight million (this estimate is too high), it would leave twenty-five million gallons that passed through the remaining 244 services (that have no meters), or over one hundred thousand gallons each. If this water had been metered and taxes levied under our meter rates, the revenue would have been $7,749.77 instead of $1,977.15, the amount received for unmetered water.

I believe it to be for the interest of the water department, and just to all water takers, to have a meter placed on every service, then one family would not use one hundred thousand gallons for six dollars, while their neighbor, who has a meter, is allowed but forty thousand gallons for ten dollars. There is no question but that the meter system is the only just and equitable way to assess the water tax. It will certainly stop a great waste of water, or materially increase the revenue.

Respectfully submitted,

GEORGE A. ADAMS,

Acting Superintendent.

# TOWN OF NEEDHAM

## REPORT

—OF THE—

# SCHOOL COMMITTEE

FOR THE YEAR 1893.

---

An important change in the management of our public schools has been made during the past year. At a special meeting of the town in July an appropriation was made for the employment of a superintendent of schools, and the citizens, in a resolve passed at the same meeting, expressed their desire that the money thus appropriated should be used by the school committee "in the employment of a superintendent who shall give his services to the town at least two days in the week." Acting under this authority the committee entered into an arrangement with the school

committee of the town of Natick by which one superintendent should be employed for both towns, three-fifths of whose time should be given to the supervision of the schools of Natick and two-fifths to those of Needham, each town contributing in the same proportion towards the payment of his salary. Having made this arrangement, the joint committees next turned their attention to securing the services of a person who would acceptably fill the position thus created, and in this they feel that they have been especially fortunate in the appointment of Mr. F. E. Parlin, formerly superintendent of the schools of Stockbridge, in this state. Mr. Parlin entered upon his duties at the beginning of the fall term. Sufficient time has not yet elapsed to form any correct judgment as to results. The work however which he has accomplished in our schools during the four months they have been under his supervision is already apparent in their improved condition, and is sufficient to justify the action taken by the town. We respectfully call attention to his report printed herewith. Since the employment of a superintendent the rules and regulations for the government of the schools have been carefully revised by the committee to adapt them more completely to the new system of management.

Thirteen pupils have graduated this year from our high school. The public exercises attending their graduation, which took place on the town hall in the evening of June 28th, were of a very interesting character, reflecting honor upon the school and showing creditable work on the part of both pupils and teachers. The names of those who graduated and to whom diplomas were awarded are as follows: Bertha May Blackwood, Mary Ella Blaisdell, Olive Rebecca Colburn, Michael Joseph Collins, Mabel Eliza Gates, Minnie Mary Gorse, Margaret Clyde Livingston,

Herbert Butler Mackintosh, Mabel Frances McIntosh, Hermia Alice Riley, William Henry Stanton, Mary Anna Tisdale, Jessie Marie Wignall.

For the first time in ten years has the hand of death been laid upon a teacher in any of our public schools. Mr. William Franklin Hayward, the principal of the Avery grammar school, after a short illness, died at Highlandville of heart failure consequent upon typhoid fever, on Nov. 10, 1893. Mr. Hayward had been a teacher in the public schools of this state for more than seventeen years. His connection with this school had been a little more than one year. He was a most efficient and faithful teacher, and his loss is mourned not only by his pupils, who were fondly attached to him, but by the whole community in which he lived and with which he had so prominently identified himself.

The appropriation for incidentals has been exceeded this year by the sum of $153.68, as shown by the financial report of your committee. $147.11 of this excess was incurred in rebuilding the Avery school yard fence, which had been burned. A portion of this expense was borne by the railroad company, and has been repaid by it into the treasury of the town.

The painting of the Harris school-house and the building of a cistern at the Parker school-house have both been done at an expenditure within the appropriations made therefor.

We have in Needham six school buildings. For quite a number of years it has been considered advisable by the town to have one of these buildings painted each year, but in view of their present good condition the committee recommend that this year no appropriation be made for that purpose. Some very much needed inside repairs

should be made this year in several of these buildings, and we recommend that the sum of $100 be appropriated for repairing school buildings.

We also recommend the following appropriations for the coming year: $11,000 for schools, $800 for the salary of superintendent of schools, $600 for incidentals, and $700 for books and supplies.

There were belonging to the town in May, as shown by the census taken at that time, 258 boys and 246 girls between five and fifteen years of age, an increase of twenty-five over last year.

Respectfully submitted for the committee,

EMERY GROVER,

Chairman.

# ANNUAL REPORT

—OF THE—

# SUPERINTENDENT OF THE PUBLIC SCHOOLS

## OF NEEDHAM.

---

*To the School Committee:*

I herewith submit my first annual report of the public schools of Needham.

Having begun my work in your schools the first of last September, my report is necessarily based upon observations made during the last term only, but, having visited the schools quite frequently, I believe I know their real condition, although in stating my impressions I do not assume infallibility myself nor demand it in others.

### In General.

Your schools are in much better condition than I expected to find them. Everything indicates that those who have had them in charge have taken an intelligent interest in their welfare and have labored to raise them to a high degree of efficiency.

The school buildings have been located at convenient points and have been kept in good repair. Apparently the rooms have been well cared for and have been quite generously equipped with the means of instruction.

It was a great pleasure to note the unusually good care some of the school grounds have received. The educational value of well kept grounds, of handsome buildings and of neat and commodious school-houses adorned with flowers, pictures and other ornaments, is not generally appreciated.

A good class of children attend the schools, most of whom evidently come from pleasant and comfortable homes. With such pupils, teaching is more enjoyable, discipline more easy and advancement more rapid than with those coming from homes of neglect and cruelty.

The people seem to take great interest in the schools. I hope this interest will increase, for our best possibilities in education cannot be attained without it. When the people appreciate and demand excellent schools, they always secure them.

Although the conditions favorable to the development of a very excellent system of schools are many, we are far from being in a satisfactory state. We have our faults, some of them grave, but they are faults for which it is hardly reasonable to hold busy men and women of a school board responsible. They are internal, chiefly in connection with the course of study and methods of instruction. There are wrong aims which foster wrong methods. Often we are not at all systematic in presenting a subject to the pupils. Various and conflicting methods, some of very doubtful character, are found in the different buildings and in the different rooms of the same building.

The blackboard is one of the most important parts of the whole equipment of a school-room—in the teaching of some subjects far preferable to the text-book—and yet in some of our schools it is used very little.

We are also very deficient in objective teaching. When objective teaching is lacking text-book teaching is usually prominent. Text-books are most excellent aids when rightly used, but can never do the teacher's work nor take the place of the pupil's own observation and reason. A child may know his books so thoroughly that he can repeat them by the page and yet have received very little mental training. A certain not very high order of memory may have been cultivated in a bad way, but the powers of observation, imagination and thought, to say nothing of feeling and the will, may have scarcely ever been called into exercise. Words have taken the place of things, memory the place of perception, repetition the place of reason, form the place of thought and text-book the place of teacher. The pupil may be perfectly familiar with his book while he is ignorant of the forces within and around him, blind and deaf to the beauty and voice of nature, and unacquainted with the commonest facts of practical life. I pity the pupil between whom and his teacher there forever stands a text-book, and I pity the school in which the length, breadth and depth of all instruction is prescribed by print. The teacher should be better than text and the pupil more than books. Give us books and let us use them, but not allow them to abuse us. And let us invite life—real, earnest, practical life—into the school-room that it may inspire and teach us.

Again, we should teach our pupils to work rapidly. It is not enough that they do their work accurately, they should be able to do it quickly also. "Make haste slowly," is a good motto to keep in mind while presenting a new

subject to a class but facility is the end to be reached. Accuracy must not be sacrificed to speed but pupils should be trained to concentrate attention upon their work and to work rapidly, and should not be allowed to fall into slow and listless, if not lazy, habits. To acquire the power to do in five minutes what now requires ten, is to double the length of life and to increase greatly one's chances for success, because, in practical affairs, the time element of one's ability is a very important factor. It is more natural, more enjoyable and in every respect better for one to exercise his powers vigorously for a time and then rest than for him to dissipate his energies in sluggish effort or deaden his powers in day dreaming.

## Teachers.

In the teacher lies the hope of the school. Her ability is the measure of its highest attainments. Every improvement in her ability whether it is in general scholarship or professional skill, appears in the school to the advantage of each child. The way to improve the school, then, is plain—improve the teacher.

The teachers have shown a strong desire to strengthen themselves in their profession and have cheerfully cooperated with me in my plans for the improvement of the schools. They have usually accepted criticism gracefully and acted upon suggestions promptly. All are faithful and worthy of the confidence and support of the people. All are not equally well fitted for their work either by nature or training, but all are working hard, conscientiously and intelligently.

Some teach reading very well indeed; others teach arithmetic well; others history. Some have improved greatly in the government of their schools; others in

methods of instruction. On account of the number of grades in their rooms, some teachers work to a great disadvantage.

## Language.

Perhaps the subject most unsatisfactorily taught was language. In no subject taught in the common schools have the methods of instruction changed more radically in recent years than in this. Formerly it was analytical and technical; now it is synthetic, rational and practical. Fluency in the use of correct, cogent, clear-cut English comes only from much practice under intelligent guidance. The study of technical grammar can never develop the language faculty. It may enable one to correct bad language, but will never give one an easy command of good language.

A course in language, for all grades below the high school, has been prepared and placed in the hands of the teachers. It has been explained and discussed in teacher's meetings and excellent work is being done in most of the rooms. Experience of a year with the course will make the teachers familiar with it and they will secure better results.

## Drawing.

I found almost no instruction in form, color and drawing being given in your schools. One or two teachers had attempted a little of this work but nothing regularly and systematically.

No subject taught in the schools calls into exercise more of the child's faculties than drawing does. It trains not only the observation, memory, imagination and judgment, but the eye to clear and discriminating vision and the hand

to neat and exact execution. The arguments in favor of teaching it are certainly as strong as those in favor of teaching singing. Singing trains the ear and voice; drawing trains the eye and hand; both exercise and develop the brain. Each is the door to an important class of facts and the best means of giving a very desirable kind of mental training.

Thus far, drawing has been introduced into the primary grades only. Next year it should be extended through the grammar grades.

The teachers have taken up the work cheerfully and intelligently and have secured very gratifying results.

## Course of Study.

Although a new course of study is very much needed, it does not seem best to adopt at once a new course in all subjects. It is better to develop a course by concentrating the thought and effort of the teachers upon one or two sub jects until they become familiar with the plan and method of teaching those, giving such occasional attention to the other subjects as may seem necessary.

The course in language is already in the hands of the teachers; I am now at work upon a course in arithmetic, which will be ready soon. The other subjects will receive attention in due time.

A course in English, including history, literature, rhetoric and the history of the English language, is needed for the high school.

## Flag Days.

Nothing can be more appropriate than that the national flag should wave over the public school. But, like everything else connected with the schools, it should be made as potent an educational factor as possible.

The flag will better serve the purpose of exciting patriotic feelings, in young people especially, if displayed only occasionally. Whatever becomes common ceases to attract our attention or to impress us. To the ordinary mind, things can never be both sacred and commonplace.

The flag may be made not only a means of teaching patriotism but a very suggestive teacher of biography and history. A list of about sixty anniversaries of events of local, state or national importance has been arranged, printed and posted in each school-room. On these anniversaries the flag is displayed and every child, according to his age, is expected to learn something about the person or event commemorated. Dates, although of great historic importance, which always come during the school vacations, have not been included.

## High School.

If I have spent less time in the high school than in any other school, it was because my attention was needed more elsewhere. Throughout the state the high schools are in better condition than the elementary schools.

Considering the long list of subjects required to be taught by each teacher, the instruction is unusually thorough. Neatness and accuracy are characteristics of the school work. An inspection of the laboratory will convince one of the skill, ingenuity and devotion of the principal. I have always found the school in perfect order and all its members busy. Teachers and students manifest a genuine and commendable pride in the improvement of their school, not only in scholarship but in the neatness and attractiveness of the room itself. For a more complete statement in regard to the school, I refer you to the principal's report herewith submitted.

## Needs.

Each building needs a cabinet of weights and measures so that denominate, or compound, numbers may be taught in a proper and practical way.

Literature for the reading classes is needed in each school. The best literature in the English language may now be had in convenient and durable form at no greater cost than the ordinary school readers.

Several rooms need maps and moulding-tables for the use of the geography classes. One room needs a new desk for the teacher, and two or three need new chairs.

A few reference books are very much needed, especially in the grammar grades.

I will enumerate no more, well knowing that all our needs cannot be immediately supplied. I place these before you for your action when in your judgment the proper time has arrived.

In conclusion I wish to say that I have no ambition to see every new thing under the sun introduced into our schools but to see the school work so planned and so performed as to give the boys and girls of Needham the best possible preparation for practical life, for honorable and happy living and for loyal and intelligent citizenship.

Comparatively little can be done in four months to improve a system of schools. It is a development, a growth, and yet, thanks to the interest, intelligence and cooperation of the teachers, a decided step has been taken in the right direction.

I wish to thank the committee for its confidence and united support.

Respectfully submitted,

F. E. PARLIN,
Superintendent of Schools.

# REPORT

—OF THE—

# PRINCIPAL OF THE HIGH SCHOOL

---

*To the Superiniendent of the Public Schools, Needham, Mass.:*

I herewith submit my first annual report of the Needham high school:

At the beginning of the year 1893 there were attending the high school fifty-seven pupils. Thirteen of these were graduated in June, and fourteen were admitted at the opening of the fall term. The attendance this year has been much better than last, and thus far there has been no falling off. Scholars and parents should consider that there can be no absence, not even from a single recitation, without serious loss to the absentee. The larger part of the absences in our school is confined to a few only. Last year there were nine scholars in town who were not absent from a single session during the entire year. Four of this number were members of the high school.

The principal has aimed to secure good order, so essential to successful school work, without coercion, believing that pupils should learn to govern themselves through a desire to obey the rules rather than through fear of breaking them. A democratic instead of an autocratic form of

government is to be preferred in the school room, as it conduces to good order without friction and to the happiness of the pupils. The placing of power in the hands of the scholars has been accompanied in some cases by a tendency to abuse the privileges accorded, but the cases have been disapproved of by the great majority and are happily disappearing.

Among the various improvements introduced during the year none is more striking than that which has taken place in the appearance of the main high school room itself. Through calcimining and tinting by the committee and the presenting of pictures and other furnishings by the different classes, our room has been greatly improved. Old books which had been in use for a long time, have been exchanged at slight cost for later editions or for new ones. The physical laboratory has been increased and that largely through the scholars themselves. The school is now well equipped with electrical apparatus of a practical kind for the pursuit of this science, which has almost become a special subject of study in a high school course.

Declamatory work and essay writing have been introduced as regular studies of the last two years. A prize contest in declamation took place before a large audience in the town hall, and this will in all probability be followed by others. Parents have attended our "public days," thus showing their interest in this kind of work. That rhetorical work pays was shown by the character of the graduating exercises of the class of 1893.

I believe our school has as good a course of study as is to be found in similar schools, and the number of those who graduate from it from year to year is much larger than in towns of equal or of larger population. Graduations with us are growing in favor, and there is an increas-

ing desire among the pupils themselves to complete the course. This is very encouraging, and reflects credit upon scholars and parents. To do the work which entitles to a diploma requires hard study, but those things in life which are obtained by the greatest effort are those which are worth the most. Parents should encourage their children to study at home, as the result achieved by home study combined with school work is more than double that accomplished by school work alone. Indeed no scholar in our high school is able to learn his lessons as they should be learned without home study.

In the past the number of scholars from our high school who have attended college or a similar institution has been very small. With our school almost within the shadow of Wellesley College and within two hours' ride of Harvard there have been barely a half dozen scholars who have entered these institutions within the history of the school. There has of late, however, been a change in this direction. Three of the class of '92 are now attending college or the Institute of Technology, two of the class of '93 entered college last fall, and there are now in the school eight or nine who are intending to go to college. Our school has lately been accepted by Wellesley College as among those whose pupils are admitted on certificate.

I am glad to be able to state that at the present time the school is in excellent condition, and may it continue to increase in favor, to be productive of good, and to educate our boys and girls to become good, useful and patriotic citizens.

Respectfully submitted,

C. L. JUDKINS,
Principal.

# Report of Supervisors of Music.

F. E. Parlin, Superintendent of Schools:

Dear Sir, — The schools throughout the town taken as a whole have made good progress, and the practical benefits of teaching music upon a true educational basis can now be seen in nearly every grade. It is the theory held by the best musical instructors of the day that the foundation of a practical education in music should be laid in the primary grades, and we are pleased to note that to some extent a gain has been made in carrying out the work outlined by the special teacher, but owing in part to the number of different classes in the lowest rooms it has been impossible to realize the satisfactory results which we obtain where the grades are more favorably situated.

The grade of music which we are taking in the upper classes is much higher than formerly. We have intermediate classes at the Avery and Kimball schools that can easily read more difficult music than was formerly taken at the high school. Last year at the graduation exercises the young ladies successfully rendered selections from Wagner and other noted composers, and the boys of the high are now anxious to organize a double quartet. We desire to express our appreciation of the strong support of an excellent school board, the hearty cooperation of the teachers in all that we have required, and the kind notice and appreciation of the superintendent.

# Report of the Trustees.

The trustees in presenting their annual report cannot refrain from calling the attention of the town to the importance of a different location for the library. Our quarters are too small and improperly ventilated. The public cannot be accommodated as they should be to get the best results. The reading-room is entirely inadequate to the needs of those who desire to avail themselves of its advantages. In this locality the fire risks are so great that our insurance must of necessity be large. Since the fire in the Kingsbury block, July 27th last, the trustees have felt more deeply the importance of a safer location.

The public library is an important factor in the education and entertainment of the people. Rich and poor, old and young, all have equal advantages from the public library. The laboring man with a large family derives most benefit from it. But as it is the business of the state and town to educate the children and make them useful citizens, money spent here could not be better spent. The town gets better and larger returns from its money put in the public library than it possibly could by using it for any other purpose. It yields the largest interest of any investment. It is surprising to see how eager the people, young and old, are to avail themselves of its advantages.

When we see the number of books taken by the young people of the town and the interest they manifest in them we wonder how Needham ever got along without a public library.

The number of books issued the past year, as shown by the librarian's report, was 11,277, nearly 1,000 in excess of the previous year; the number of magazines, 1,223, total 12,500 — a very large number for a town of this size, and it speaks well for the intelligence of the people.

Good judges have pronounced our selection of books an excellent one. Through the influence of our librarian the young people have been induced to read a higher grade of literature. We can see a great improvement in the quality of books called for.

A. E. MILLER,
Chairman.

# Auditors' Report.

The auditors would make the following report of their examination of the accounts for 1893:

| | | | |
|---|---|---|---|
| Balance on hand Jan. 1, 1893, | 3,892 95 | Paid for town expenses, | 38,325 73 |
| Received from temporary loans | 39,100 00 | Paid state and county taxes | 5,056 91 |
| Received from all other sources, | 41,419 69 | Paid for hydrant service, | 3,475 00 |
| | | Paid public library, | 808 39 |
| | | Paid state aid, | 278 00 |
| | | Paid tax titles, interest and abatement, | 310 70 |
| | | Paid temporary loans, | 36,100 00 |
| | | Paid state for druggist licenses, | 1 25 |
| | | Balance on hand Jan. 1, 1894, | 56 66 |
| | $84,412 69 | | $84,412 64 |

We find all payments properly vouched for. It is to be regretted, however, that with business depressed the way

it has been the past few months the appropriations should be found overdrawn by more than $2,000. There is still uncollected taxes and interest amounting to $16,310.44. The stringency of money this season would account for the amount of 1893 taxes uncollected, but in our opinion the 1892 taxes should have been collected and paid over before Jan. 1, 1894. The amount of the "school fund," so called, is the same as a year ago, the town having voted to use the income for the purchase of school books. This fund is represented almost wholly ($17,000) by treasurer's notes, $10,000 being demand notes, dated May 12, 1890, and Mar. 9, 1891, of $5,000 each, and stating to be borrowed under the vote passed by the town in March of the year they were made. As the town only authorizes temporary loans "in anticipation of taxes to be paid therefrom," we question the propriety of borrowing "on demand." In our judgment it is not business-like for a town claiming to be without a debt to have outstanding notes like these. As it stands now the town has been under a fixed interest charge of $400 per year for nearly three years.

### Recommendation.

We would recommend to the consideration of the voters the desirability of investing this fund, for two reasons: 1st, that the town may derive full benefit of the fund for the use of schools. $17,719 at 4% would yield $708.76 per annum, a gain of $48 over last year. 2d, that the easy availability of this money removes all occasion for calculating expenditure with regard to income. By wise thought and care in contracting bills it is possible to reduce the interest charges on temporary loans, thus making a saving to the town.

Respectfully submitted,

W. G. Moseley,
J. Smith Beless, } Auditors.

# Chief Engineer's Report.

---

There has been an unusual loss on account of fires during the past year, caused mostly by incendiaries.

Jan. 19, house of Wm. Haynes, Pleasant street, caused by carelessness in thawing out water pipe; partial loss, $91.

March 14, house of Henry Wight, Webster street, accidental; partial loss, $15.

May 4, house of Mrs. Margaret R. Gates, Prince street, incendiary; total loss, $2,000.

June 11, house of H. Pierce, Forest street, incendiary; total loss, $750.

July 21, laundry building of Charles Evens, Hillside avenue, incendiary; total loss, $750.

July 27, Kingsbury block, Great Plain avenue; partial loss, $5,000.

Aug. 13, shed back of Low's block, West street, Highlandville, supposed incendiary; damage slight.

Aug. 17, paper mill of Frank H. Brown, Charles River Village, incendiary; total loss, $11,000.

Sept. 3, barn and unoccupied house of Dr. Leach, South street, incendiary; total loss, $400.

Oct. 11, barn of Mrs. Margaret R. Gates, Prince street, incendiary; total loss, $800.

There has also been twelve alarms for brush fires, five call and seven still alarms, making quite an expense to the town.

The extension of the fire alarm the past year was to Greendale school-house, placing a gong on the house, also putting a gong on school-house at Needham Upper Falls, also putting a striker in school-house at Charles River Village, and running wire to and putting up alarm box at corner of Central avenue and Forest street. I should recommend putting an alarm box at corner of Greendale avenue and High street, Highlandville, and at corner of Chestnut and South streets.

I also recommend the purchase of eight hundred feet of fire hose to replace poor and condemned hose now in the department, some that has been in use since the department was first organized.

In conclusion, let me extend my heartfelt thanks to all members of the department for their prompt and efficient work at all fires, especially at the fire in Kingsbury block, and to the citizens who so willingly aided the department at Kingsbury block.

JOHN H. WHITTEMORE,
Chief Needham Fire Department.

GEORGE E. JONES,
Secretary.

Before ringing in an alarm be sure that a fire actually exists. Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town and should be avoided.

To give an alarm pull down the hook in the box once, without jerking, and let go. Wait at box and direct the firemen to the fire.

For a Brush Fire strike ten blows with the key and then

pull down the hook, but never pull in the alarm first for a brush fire.

After unlocking the box do not attempt to take out the key, for no one but an engineer can release it as all the boxes have trap locks.

After the first alarm has been rung in all other alarms or signals are given only by the engineers.

Never give a second alarm for the same fire without an order from the Chief Engineer or Assistants.

Citizens are earnestly requested to keep themselves informed as to the location of keys. Signs over the boxes will give the desired information.

### Caution to Persons Holding Signal Keys.

Never open or touch the apparatus except in case of fire. Be sure your station is locked before leaving it. Never let the key go out of your possession except to some responsible person to give an alarm of fire, and be sure the key is returned. If you remove from your house or place of business return the key to Chief of Fire Department.

### Extra Signals.

Two strokes repeated twice when given under the direction of the Chairman of the School Committee denotes that the next session will be dispensed with. Two strokes after an alarm denotes fire all out.

One stroke at 12 m. each day.

# REPORT AND RECOMMENDATIONS

—OF—

# APPROPRIATION COMMITTEE.

---

The appropriation committee appointed at the annual meeting, March 15, 1893, met at the selectmen's room January 15, 1894, and organized by the choice of Emery Grover as chairman and G. W. Tisdale as secretary. A fully attended public hearing was held on January 23, at which citizens from all parts of the town suggested to the committee the needs of the different sections. After three long executive sessions of the committee at which each appropriation, and the requests of the citizens were fully discussed, the committee would recommend that the following sums be appropriated for the year 1894:

| | |
|---|---|
| Schools, | $11,000 00 |
| School incidentals, | 600 00 |
| School books and supplies, | 700 00 |

The income from the school fund to be turned into the treasury to meet this appropriation and the balance, if any, to be raised by taxation.

| | |
|---|---|
| Repairs of school-houses, | $100 00 |

| | |
|---|---|
| Salary of supt. of schools, | 800 00 |
| Highways, | 6,000 00 |
| Sidewalks (concrete and gravel), | 1,000 00 |
| Support of poor, | 2,800 00 |
| Removing snow, | 500 00 |
| Abatement of taxes, | 250 00 |
| Maintenance of fire department, | 600 00 |
| Incidentals and appliances fire dept., | 200 00 |
| Engineers' salaries fire department, | 150 00 |
| Soldier's Relief, | 50 00 |
| Interest on temporary loans, | 600 00 |
| Salaries of town officers, | 2,600 00 |
| Incidentals, | 1,300 00 |
| Heating, lighting, care and rent of town hall, | 800 00 |
| Enforcement of liquor law, | 100 00 |
| Police, fines from criminal cases and the committee recommending the discontinuance of the services of the night watchman, | 700 00 |
| Printing and stationery, | 750 00 |
| Water bonds and deficiencies in water department, | 5,000 00 |
| Public library, dog tax and | 200 00 |
| Memorial Day, | 150 00 |
| Public grounds, | 200 00 |
| Street lights, maintenance and interest on cost of plant. | 3,050 00 |
| State aid, | 300 00 |

The committee recommend that all unexpended balances, except the unexpended balance of the water department, be turned into the treasury and the deficiencies be paid from the treasury, and their estimates for appropriations have been made accordingly.

In view of the heavy appropriations which the town will be compelled to make at the annual meeting this committee would recommend that it is inexpedient to appropriate any

sum for the extension of the electric light or fire alarm system the present year.

No report having been made to us by the special committee appointed at the last annual meeting to consider the advisability of purchasing horses, etc., for the use of the town, this committee would recomend no appropriation.

The committee would recommend that the town instruct its water commissioners to have erected near the pumping station, a suitable dwelling-house for occupancy by the engineer, the cost of the same to be charged to the construction account of the water department.

To facilitate the business, the committee instructed its secretary to prepare motions in accordance with the foregoing recommendations and present them at the annual meeting.

Respectfully submitted,

G. W. TISDALE,
Secretary.

# REPORT OF THE AGENT

—OF THE—

# BOARD OF HEALTH.

---

*To the Board of Health:*

GENTLEMEN: I herewith submit the following report for the year ending Dec. 31, 1893:

The health of our town and its freedom from any serious epidemic of infectious and contagious disease (except that of typhoid fever) during the past year is a matter of sincere congratulation.

What will soon be required as the town progresses, to put us in a thorough sanitary condition, will be a general system of sewerage, which the introduction of a public water supply generally demands.

We would again call the attention of all owners and occupants of premises to the great importance of perfect cleanliness in and about all dwellings, the cellars should be kept dry, clean and free from all decaying matter and well ventilated.

During the past year eleven cases of typhoid fever, three cases of diphtheria, four cases of scarlet fever, and one case of measles have been reported to the board.

## Typhoid Fever.

During the month of November there was quite an epidemic of typhoid fever. Eleven cases were reported between the 3d and 19th of the month. These cases were not confined to any one section of the town or to any particular class of inhabitants. By the advice of the State Board of Health, the following blank to be filled out for each case was prepared, and a house to house visitation of the reported cases was made, in order to ascertain the real state of affairs:

# Board of Health of Needham, Massachusetts.

### TYPHOID FEVER.

A study of the result showed no evidence of infection by polluted well water or contaminated milk.

Most of the cases I think can be attributed to bad sanitary conditions. Some of the privy vaults are open at the back and are connected with the tenement, or are so near to it as to create a nuisance, and in most instances they are made the receptacle for all garbage and slops.

Three deaths occurred from typhoid fever out of the eleven reported.

## Scarlet Fever.

Every possible effort was made by the board to prevent the spread of scarlet fever, and patients kept isolated as much as possible. Proper isolation of the case was often impossible at the home of the patient. As has been stated in a former report, it was found by the board that certain classes of people would not keep their children who were convalescing from the disease in the house, but allowed them to mingle with other children.

Fifty-seven deaths have occurred in Needham in 1893, as against fifty-four for 1892.

Your health officer has made one hundred visits of inspection and examination, visiting sixty places where complaints have been made. Twenty letters have been written, besides attendance at court, etc. Fewer petty complaints have been made than in previous years.

## The Swine Nuisance.

Fewer swine have been kept in the thickly settled portions of the town than in former years. Some piggeries have been entirely abandoned. In a few cases as a last resort the board appealed to the court to enforce its orders.

To impress upon the minds of citizens more directly

the importance of maintaining a high order of sanitary conditions throughout the town, and especially upon their own premises at all times, the board desires to call their attention to the importance of a careful study and observance of the regulations of the board.

In the absence of any system of sewerage I would particularly recommend the licensing of one or two responsible parties to clean out cesspools and privy vaults, as in this way much that is now very objectionable may be overcome. To illustrate, the writer on two different occasions when returning from an evening call about nine o'clock on one of the warmest days in summer, perceived a peculiar odor which was not noticeable one-half hour before. Upon investigation it was found that an irresponsible party without a permit had been cleaning out a privy vault. This had been put into leaky barrels in a cart. The team then started for home. This liquid filth run out of the barrels into the street, where it could be traced from the starting point to the end, and this odor lasted for forty-eight hours or more. This is only one of many instances that have been noticed.

## Plumbing.

At a special town meeting the board presented a code of by-laws to be adopted by the town in relation to plumbing, but through an error in the printed warrant these were not acted upon, and in the absence of any specific by-laws it has been difficult to get plumbers to comply with regulations of the board. The plumbing in seventeen tenements has been examined, and a part of these have been tested by water pressure test, and a certificate of inspection issued.

## Water.

Frequent rumors have reached the board that our water supply was impure and contaminated, but inspection and examination of the same reveals the fact that it is not polluted in any way, and frequent analysis by the State Board of Health shows it to be far above the average water supply of the state.

In concluding this report I desire to thank the board for the willingness manifested by them in advising me in matters where I needed advice, and trust my duties have been performed in such a manner as to meet their appropriation.

Respectfully submitted,

ALBERT M. MILLER,

Health Officer.
